PROFESSIONAL SUMMARY

System Administrator with 6+ years of experience supporting Windows and Linux environments, Microsoft 365, Google Workspace, Active Directory, networks, virtualization, endpoint security, and end-user operations across multi-site organizations supporting 350+ users. Hands-on experience with Windows Server, AD DS, Group Policy, VMware ESXi/vCenter, SCCM, WSUS, DNS, DHCP, VPNs, EDR/XDR, patch management, backup, and disaster recovery. Experienced in L2/L3 support, server deployment, access administration, infrastructure monitoring, security hardening, troubleshooting, and IT operations automation in SLA-driven environments.

EXPERIENCE

System Administrator & Cybersecurity Engineer

EliteVAD FZCO · Dubai, UAE · Jul 2024 – Present

- Administered Microsoft 365, Microsoft Teams, Google Workspace, and Active Directory, managing user provisioning, Group Policy, role-based access control, and identity lifecycle management.
- Provided L2/L3 IT support for 350+ end users across multiple sites, maintaining system reliability, performance, and SLA compliance.
- Implemented enterprise-wide backup and disaster recovery automation, reducing downtime and incident response time by 35%.
- Managed enterprise server infrastructure including rack servers, network switches, structured cabling, patch panels, server health monitoring, hardware lifecycle management, and preventive maintenance.
- Configured and maintained firewalls, LANs, routing, DNS, DHCP, VPN, and TCP/IP for high availability and scalability.
- Managed hybrid infrastructure across Windows Server, VMware ESXi/vCenter, Microsoft Azure, AWS, and on-premises environments, ensuring high availability and operational reliability.
- Deployed and managed endpoint security (EDR/XDR), phishing simulation platforms, ITSM, patch management, and threat prevention controls across endpoints, networks, and cloud workloads.
- Executed POC deployments for EDR/XDR, IAM, MFA, SSO, DLP, and phishing simulation solutions to validate feasibility and drive stakeholder confidence.
- Collaborated on RFP/RFI responses, technical proposals, BOMs, and solution architecture designs with pre-sales and sales teams.
- Oversaw WordPress website management including updates, uptime monitoring, and security hardening.

Technical Support Executive

Synosys Technologies LLC (Locator) · UAE · Dec 2022 – Jul 2024

- Delivered technical training, onboarding, and demonstrations for 15,000+ users on IoT platforms, vehicle tracking systems, and endpoint-security best practices.
- Led IoT software integration, customization, application testing, and bug reporting; provided L1/L2 support resolving 90%+ of tickets within SLA.
- Managed networking devices, cloud accounts, CRM systems, and email platforms for SME clients, ensuring stability and minimal downtime.
- Conducted on-site visits across the UAE for system deployment, user setup, troubleshooting, and IoT asset monitoring.
- Executed large-scale digital campaigns (email, WhatsApp, SMS) delivering 100,000+ outbound communications per campaign cycle.
- Performed data scraping and extraction; prepared actionable datasets and qualified leads for sales and operations teams.

System Engineer

Delta Solutions · India · Jan 2020 – Nov 2022

- Installed, configured, administered, and maintained Windows and Linux operating systems across enterprise client environments.
- Deployed OS images and configured workstations for 5,000+ users, ensuring standardized builds and smooth onboarding.
- Provided Tier-1 & Tier-2 support for hardware, software, networking, and applications — resolving 85%+ of tickets at first contact.
- Reduced system downtime by 40% through preventive maintenance, structured documentation, and proactive issue resolution.
- Configured and managed LAN/WAN connectivity, routers, printers, and IT peripherals for stable, secure operations.
- Managed user accounts, access controls, and endpoint configurations; maintained accurate service records and technical documentation.
- Assisted with software rollouts, system migrations, patch management, data backup & recovery, Android and hardware refresh projects.

PROJECTS

- File Analysis Tool: Created a basic file scanning and threat detection tool.
- IT Automation: Automated IT tasks using scripting and n8n.
- Cloud Lab: Built a lab using ESXi, VPSie, SIEM, IAM, DLP and security practice.
- Portfolio Website: Built a cloud-hosted portfolio with custom domain.
- RovoIndia Website: Developed and maintained rovoindia.com.

CORE TECHNICAL COMPETENCIES

Systems & OS	Windows Server 2012–2022, Linux (RHEL, Ubuntu, CentOS), Windows 10/11, macOS, Android
Identity & Access	Active Directory, Group Policy, RBAC, IAM, PAM, SSO, MFA, Intune, SCCM
Cloud & Virtualisation	Azure, AWS, Microsoft 365, Google Workspace, VMware ESXi/vCenter, Hyper-V, KVM, VPSie, HCI
Networking	TCP/IP, DNS, DHCP, VLANs, VPN, Routing, Switching, Firewalls, Nmap, Patch Panels, Cabling, Cisco, Fortinet, Hillstone
Endpoint Security	CrowdStrike EDR/XDR, SIEM/SOAR, IAM, PAM, MFA, SSO (MiniOrange), DLP (Zecurion), Patch Mgmt (SecPod), Threat Intelligence, Incident Response and Management, VDI (Parallels), Phishing Simulations
Backup & Recovery	Enterprise backup automation, disaster recovery planning, RTO/RPO management
Monitoring & ITSM	Zabbix, Nagios, ITSM platforms, SLA-driven L2/L3 support workflows, remote troubleshooting
Automation & Scripting	PowerShell, Bash, Ansible, API Integration
Web & Platforms	WordPress, GitHub, Brevo

ADDITIONAL BACKGROUND

Broader experience that complements core sysadmin work:

- IoT & Vehicle Tracking Solution Deployment
- CRM & Sales Technical Support
- ERP & Cloud Solution Consultation
- Licensing & Subscription Advisory
- Website & Online Branding Management
- Digital Campaign Execution (Email, SMS, WhatsApp)

CERTIFICATIONS

- Fortinet NSE1, NSE2 & NSE3
- Google Cloud Cybersecurity
- Google Cybersecurity Certificate
- Cybersecurity Foundations: GRC
- Google IT Support Professional Certificate
- Microsoft & LinkedIn — Career Essentials (SysAdmin, Cybersecurity, GenAI)
- Cybersecurity Job Simulations — Mastercard / AIG / Commonwealth Bank / Datacom
- miniOrange IAM Admin Dashboard
- Parallels RAS Technical Professional (RAS-TP)
- AWS Cloud Quest: Generative AI Practitioner
- Oracle Certified Foundations Associate
- TCM Linux 100 Fundamentals

EDUCATION

Diploma in Computer Science Engineering Annamalai University	2017 – 2020
Internship — Network Engineering Synnefo Solutions	2021 – 2022

· Relevant certifications studied : A+,N+, CCNA, RHEL 8, AWS, MCSE, Cybersecurity
